EU Green Week webinar Preparing for water resilience in the mountains: from awareness to action 25 June | 10.00 – 12.00

Moderation by Marie Laurent, Project Manager, Euromontana

Setting the scene From peaks to valleys: understanding mountain regions' contributions to water resilience 10.05 – 10.15		
Setting the scene From peaks to valleys: understanding mountain regions' contributions to water resilience 10.05 – 10.15	10.00 - 10.05	Welcome words
Setting the scene From peaks to valleys: understanding mountain regions' contributions to water resilience 10.05 – 10.15		Marie Laurent, Project Manager, Euromontana
water resilience 10.05 – 10.15		
10.05 – 10.15 Introduction: the mountains - Europe's water towers Blandine Camus, Policy & Communication Officer, Euromontana 10.15 – 10.30 The role of the regions in achieving water resilience in Europe André Viola, Member of the European Committee of the Regions 10.30 – 10.45 The challenge of raising awareness of water management in Europe's mountains Marie-Luce Ghib, Head of Mountain Projects at the French National Agency for Territorial Cohesion (ANCT) Sharing experiences From challenges to action: how to ensure water resilience in the mountains? Assessing future resources to plan for resilience – the PIRAGUA experience Oriol Travesset, Researcher, Andorra Research + Innovation 11.00 – 11.15 Tackling water scarcity challenges in Mediterranean mountains – lessons learned from Crete Georges Alexakis, Vice-Governor of Crete region Measuring and adapting water use in mountain areas in the face of climate change – the MountResilience ambitions Nuria Antonia Mignone, MountResilience Regional demonstrator coordinator in Piemonte & Nicolas Henchoz, MountResilience Regional demonstrator coordinator in Valais Canton	Setting the sce	ne From peaks to valleys: understanding mountain regions' contributions to
Blandine Camus, Policy & Communication Officer, Euromontana 10.15 – 10.30 The role of the regions in achieving water resilience in Europe André Viola, Member of the European Committee of the Regions 10.30 – 10.45 The challenge of raising awareness of water management in Europe's mountains Marie-Luce Ghib, Head of Mountain Projects at the French National Agency for Territorial Cohesion (ANCT) Sharing experiences From challenges to action: how to ensure water resilience in the mountains? Assessing future resources to plan for resilience – the PIRAGUA experience Oriol Travesset, Researcher, Andorra Research + Innovation 11.00 – 11.15 Tackling water scarcity challenges in Mediterranean mountains – lessons learned from Crete Georges Alexakis, Vice-Governor of Crete region Measuring and adapting water use in mountain areas in the face of climate change – the MountResilience ambitions Nuria Antonia Mignone, MountResilience Regional demonstrator coordinator in Piemonte & Nicolas Henchoz, MountResilience Regional demonstrator coordinator in Valais Canton	water resilienc	e
