

Agenda: Community Water Audit and Infrastructure Development Event

Objective: This event's goal is to introduce the Community Water Audit and Infrastructure Development project, which will enhance the health of the local population and water quality in Buea, Cameroon's outlying districts.

Agenda:

Date	Activities	Time (GMT+1)
Week 1 June 4 th and June 6 th	<ul style="list-style-type: none"> • Search for opportunities for improvement by conducting a comprehensive evaluation of the city's water infrastructure, paying particular attention to broken public taps in outlying areas. • This entails assessing the state of the current infrastructure physically, recording the findings, and determining which repairs are necessary. 	10 AM – 2 PM
June 8th	Livestream on topic “States of current water infrastructures and how it is affecting communities in Africa”	8 PM - 10 PM

Week 2 June 11 th and June 13 th	<ul style="list-style-type: none"> • Provide 20 hostels whose water tanks were in really bad conditions with purification chemicals (like chlorine) and succinct instructions on how to use them. • This requires providing them with guidelines for dosages, application techniques, and safety measures to guarantee efficient water filtration and enhance hostel occupants' health. 	10 AM – 2 PM
June 15th	Livestream on topic “Effective water purification methods”	8 PM – 10 PM
Week 3 June 19 th and June 22 nd	<ul style="list-style-type: none"> • Organize workshops for community members to educate them on water conservation techniques, factors affecting water quality, and water resilience topics. • These workshops will be interactive and engaging, featuring presentations, discussions, and hands-on activities to promote active learning and knowledge retention among participants. 	10 AM – 12 PM
June 22th	Livestream on topic “Exploring the concept of water resilience and its importance in ensuring sustainable water management practices”	8 PM - 10 PM

Week 3 June 24 th – June 30 th	<ul style="list-style-type: none"> • Launching of online ads awareness campaigns through GoGreen Technologies' Facebook page to raise awareness about water conservation and promote community engagement. This includes creating informative posts, videos, infographics, and quizzes to educate followers about the importance of water conservation and encourage them to take action in their daily lives. 	Posting will depend on the social media marketer as he/she will know when a post should be posted for maximum reach out.
June 24 th , 26 th and 29 th	<ul style="list-style-type: none"> • Public taps that were identified as damaged and needed maintenance during the first week will be maintained on these days. 	8 AM – 2 PM
June 29th	Livestream topic on “Why most public taps in Africa are been mishandled and ways to remedy the situation”	8 PM- 10PM
From 1 st – 7 th July	Evaluation, reporting and official closing of project.
