“Green Mission: Małoszyce” A Family Eco Picnic

When: 1 June 2026, 10:00 – 16:00

Where: 42-439 Małoszyce

Host: Iwona Gębka, eco-manager of the Żarnowiec Municipality

The initiative is an official EU Green Week Partner Event.

Can celebrating together also be an investment in nature? In Małoszyce, the answer is yes. The Family Eco Picnic combines the joy of a community celebration with discovering the natural world and building environmental awareness from an early age.

Children, parents and local residents will gather in a green outdoor space to spend an active afternoon filled with fun and inspiring eco-activities. The picnic demonstrates that investing in nature begins with knowledge, imagination and everyday choices made by the community.

During the event, young participants will take part in environmental workshops, where they will learn the basic principles of caring for the environment through play and creativity. Outdoor games, quizzes, colouring activities and competitions will help children explore the secrets of nature and understand why protecting the environment matters for the future of their local area.

A special highlight will be the creative eco-bag design zone, where children will be able to design their own reusable bags. This activity will show that reusable bags can be both practical and colourful while helping to reduce plastic waste. It is a simple way to demonstrate how everyday decisions – such as limiting single-use packaging – contribute to environmental protection.

The picnic will also feature classic outdoor attractions. Children will enjoy inflatable play areas, slides and a variety of outdoor games and activities, making the event a lively space for family fun and community integration.

The Family Eco Picnic in Małoszyce shows that investing in nature also means investing in the knowledge and attitudes of younger generations. Through play, creativity and shared experiences, children learn that caring for the environment can be joyful, inspiring and full of positive energy.

The event is organised as part of the project “Silesia. Blue Sky Restored”.
