

GreenHack 2026 – Draft Programme

Date: 5–6 June 2026

Location: Prague, Czech Republic (42 Prague)

Day 1 – Friday, 5 June

13:00 – Registration & Networking Lunch

14:00 – Opening Session & Keynote: Investing in Nature through Innovation

The event officially opens with a keynote focused on the EU Green Week 2026 theme “investing in nature.” The session highlights how innovation, technology, and cross-sector collaboration can contribute to biodiversity protection, sustainable resource management, and climate resilience.

14:30 – Introduction of Sustainability Challenges

Partners from industry, public institutions, and environmental organisations present real-world challenges. These may include topics such as climate adaptation, circular economy, water management, biodiversity protection, and nature-based solutions supported by data and AI.

15:30 – Team Formation & Hackathon Kick-off

18:30 – Expert Mentoring Sessions

Mentors from environmental science, technology, business, and policy provide guidance.

20:00 – Dinner & Networking

Day 2 – Saturday, 6 June

09:00 – Breakfast & Team Work

12:00 – Midpoint Check-ins with Mentors

13:00 – Lunch

16:00 – Final Presentations & Demo Session (Open to Public)

Teams present their solutions to a jury and a broader audience, including stakeholders, policymakers, companies, and the general public. This session is designed as a public showcase to raise awareness about how investing in nature can lead to tangible, innovative solutions.

17:30 – Jury Deliberation

An expert jury evaluates projects based on innovation, environmental impact, feasibility, and scalability.

18:00 – Awards Ceremony & Closing

Winning teams are announced, and the event concludes with a summary of key insights and outcomes.
