PANEL – FINANCING WATER INFRASTRUCTURE AS NATURAL CAPITAL

16:30 – 18:00

ACEA – BEI – BANCA MONDIALE – CDP – WATER EUROPE

The panel will explore how the environmental value generated by investments in water infrastructure—such as water security, biodiversity protection, and pollution reduction—can be integrated into Nature Credit mechanisms and sustainable finance frameworks.

It will also examine the main regulatory and financial methodologies, along with innovative instruments capable of translating these benefits into sustainable and bankable revenue streams.
