

## **Reducing plastic litter and water pollution thanks to sustainable waste management practices**

### **How proper and sustainable plastic disposal positively affects water quality**

#### **Introduction:**

GreenVETAfrica partners, led by the project coordinator AREA s.a.s., are enthusiastic to organize a special training session dedicated to the reduction and prevention of water pollution to celebrate the EU Green Week.

#### **Objectives:**

The Erasmus Day Celebration event aims to:

- Explore the critical aspects of water pollution;
- Explain how plastic pollution affects water's quality;
- Present potential solutions to water pollution, especially through the implementation of sustainable waste management practices;
- Facilitate interactive discussions and knowledge sharing among participants.

#### **Date and Venue:**

- **Date:** June 6
- **Time:** 10-12
- **Venue:** Online

#### **Audience:**

The workshop is open to anyone interested in learning more about the impacts of plastic littering on water quality, while acquiring important information regarding how proper and respectful plastic disposal can greatly mitigate the severe issue of water pollution.
