

The Iberian Forest and the Carbon Markets

9. June.2026

Lisbon | Portugal

Draft event program:

14:00 – 14:30 – Opening Session

The Iberian forest as a tool for climate action and competitiveness: science, sustainable territorial management, and carbon markets (and their social and environmental co-benefits, including ecosystem services such as Biodiversity, Water and Soil).

14:30 – 15:15 – Panel 1

The potential of the Iberian Forest.

15:15 – 16:00 – Panel 2

Voluntary Carbon Markets (national, European and private): Credibility, Risk and Opportunity for the Iberian Forest.

16:00 – 16:15 – Coffee break

16:15 – 16:45 – Panel 3

Nature-based solutions: By acting on nature-based systems such as the Forest, we are acting on the Carbon, Water and Soil cycles, on Biodiversity Conservation, and on the Promotion of Human Communities.

16:45 – 17:15 – Panel 4

From Science to Market: Carbon Projects with Impact in the Iberian Territory.

17:15 – 17:30 – Closing session
