

2025 EU Green week In Lublin

Field Workshops for Children: "Little Circular Heroes"

Date: 01.06.2025

Place: Botanical Garden in Lublin

Join our exciting outdoor workshops where children become "Little Circular Heroes" learning about the circular economy through hands-on activities in nature. These field workshops, inspired by the European Circular Economy Stakeholder Platform and the Circular Cities and Regions Initiative (CCRI), aim to introduce young minds to sustainability concepts in an engaging, interactive way.

Workshop Activities

- **Nature's Cycles Exploration:** Children will observe and document natural circular systems in local parks, forests, or gardens
- **Trash Treasure Hunt:** Guided collection of discarded items to be transformed into art or useful objects
- **Urban Garden Planting:** Hands-on experience creating small gardens using recycled containers
- **Water Cycle Experiments:** Simple outdoor experiments demonstrating water purification and reuse
- **Composting Adventure:** Learning how food waste transforms into valuable soil

Learning Outcomes

Participants will understand basic circular economy principles, develop environmental awareness, and learn practical sustainability skills they can apply at home and school. Through playful discovery, children will connect with nature while developing an appreciation for resource conservation.

Workshop Details

- **Ages:** 7-12 years
- **Duration:** 3 hours
- **Group Size:** Maximum 15 children per session
- **Equipment:** All materials provided; children should wear weather-appropriate clothing and bring water bottles

These workshops align with European sustainability goals and provide children with the knowledge and inspiration to become the circular economy leaders of tomorrow!
