

## EU Green Week 2026 Partner Event

# Nature at Work in Cities - Agenda

**Date:** 19 June 2026, 13:00–14:00 (CEST)

**Format:** Online webinar

**Duration:** 60 minutes

**Language:** English

### **13:00 – 13:05 | Welcome and introduction (5 min)**

- Welcome to the EU Green Week partner event
- Objectives and structure of the webinar
- Introduction to the theme: Nature at work in cities

### **13:05 – 13:15 | Nature at work in cities: urban performance and living systems (10 min)**

- Nature as a performing system in urban environments
- Key functions: climate regulation, water management, biodiversity and health
- From green space to nature as infrastructure

*Speaker: Arup expert*

### **13:15 – 13:40 | Project insights from practice: multidisciplinary perspectives (25 min)**

Short, focused inputs illustrating how nature-based solutions are delivered through real projects:

- Landscape and ecology perspective. Integrating living systems into urban form and public space.
- Water and climate resilience perspective. Nature-based approaches to flood risk, heat and climate adaptation.
- Urban design and infrastructure perspective. Embedding nature into urban development and infrastructure projects

*Speakers: Arup experts from different disciplines*

### **13:40 – 13:55 | Key lessons from delivery and integration (15 min)**

- What works in practice — and what doesn't
- The value of integration and cross-disciplinary collaboration
- Moving from strategy to implementation

*Moderated discussion*
