

LINKING CIRCULAR ECONOMY AND CLIMATE CHANGE MITIGATION: THE CARBON FOOTPRINT OF MUNICIPAL WASTE

24 June 2025 | 10:00 – 11:30 | Online

Draft programme

Discover the results of the More Circularity, Less Carbon campaign and discuss with us how to reduce the emissions linked with local resource management, insisting on the link between circular economy and climate change mitigation.

- 10:00 – 10:05** Welcome words
- 10:05 – 10:30** The More Circularity, Less Carbon campaign
 - Activities and objectives
 - Carbon Metrics International
 - Results and lessons learnt
 - Q&A
- 10:30 – 10:50** Preventing food waste - The experience of Navarra (*tbc*)
- 10:50 – 11:10** Encompassing climate change within a waste plan - The experience of Ireland? (*tbc*)
- 11:10 – 11:25** Are ambitious prevention policies and binding targets the only way forward? – Panel discussion and Q&A
- 11:25 – 11:30** Conclusion
