SWRIPS - Sustainable Wastewater Reuse with Innovative Purifying and Sensing System for the agrifood supply chain

Seminars and demonstrations to discover the SWRIPS project and innovative techniques for wastewater reuse in the agri-food sector

We will present the most innovative techniques for the reuse of wastewater in agriculture and the systems for monitoring water quality.

Participants will be able to attend demonstrations and work alongside researchers to explore water quality hands-on.

Program – June 5th, on the occasion of World Environment Day

- **4:30 PM – 6:30 PM** Water Workshops
- **7:00 PM** *Science-Aperitif*: Wastewater Reuse and Water Quality Monitoring
